MAKE UP

BRAND NEW VITAGE® COLOUR MINERALS are made using only naturally occurring minerals (Titanium Dioxide, Iron Oxides and Mica) that are mined and perfectly mixed to create a capsule range of colours that are both natural and wearable, without the need for additional fillers, preservatives and chemicals.

Concentrated colour pigments that perform differently from other minerals, their intense yet sheer appearance will give you a high performance product that uses half the quantity of other minerals. Less volume means more colour!

Our unique mineral concept creates a fresh flawless coverage with intense colour yet remains sheer and natural looking.
